## Charter Prep

### Technical Assistance Training Program

The primary purpose of this program is to provide a road map to open a successful charter public school. We are committed to providing the knowledge and resources to help guide you on the journey to new school development. All In Person Trainings are \$125. Members of the Founder Network will receive a 15% registration discount!

#### September 23 Performance & Quality

9:00 a.m. - 12:00 p.m.

This workshop will discuss the basics of collection and analysis of school data. Learn how this data will drive your school to success and evaluate the predicted success of your chosen school model. This session will identify key components of educational program development necessary to develop a successful school proposal.

#### October 7 Governance & Management

9:00 a.m. - 12:00 p.m.

Attendees will identify key elements associated with a quality board leading their school to excellence and develop a plan to recruit the right board members. Training will also address key board member competencies and principal legal issues that all development teams and school boards should be aware of. Attendees will leave this session with an understanding of what is expected in a charter school proposal related to governance and school management.

#### December 2 Budget

9:00 a.m. - 12:00 p.m.

Participants will learn the basics of building a solid and safe budget for a new charter school. This session will include need to know strategies and information about MI School Accounting, including proper accounting systems, chart of accounts, budget management, and keys to success. Participants will be able to transfer the knowledge gained towards a more successful completion of a charter school application.

#### January 13 Operations

9:00 a.m. - 12:00 p.m.

Learn how to make the right facilities decisions based on your needs, including an overview of Michigan's legal requirements and the cost implications of various options for facility selection and development. This session will also focus on facility and renovation regulations in Michigan, including DLEG inspections. Participants will obtain a greater understanding of what is expected to successfully identify and secure a new school building.
